GUESS THE PERCENTAGES !!

There are always some people whose ideas are considered bad or dangerous by other people. For instance, INSERT FROM BELOW. Should such a person be allowed to teach in a college or university, or not?

Somebody who is against all churches and religion?

0% Not Allowed

A homosexual ?

50% Not Allowed

A racist ?

50% Not Allowed

Consider the percentage of Americans saying that a homosexual should NOT be allowed to teach in college.

Do you think that this percentage is higher for men or for women — or do you think it is the same for both genders?

I think it was higher for men

Do you think that this percentage is higher in recent years (2000-2010) than in past years (1970-79) OR was it higher in past years OR was it about the same in both time periods?

It was higher in past years

Do you think this percentage is higher among college-educated persons, lower among college-educated persons, or it about the same across educational levels?

About the same

Do you think this percentage is lowest among Republicans, Democrats, or Independents?

Independents

CODEBOOK for Soc334 Student Questionnaire, January 30, 2012

VARIABLE	VARIABLE LABEL	CODING
student	Arbitrary number used to identify student and hide their name	number
antirelig	Estimate of percent of American adult who would NOT allow somebody who is against all churches and religions to teach in college	number
gay	Estimate of percent of American adult who would NOT allow a gay man or lesbian to teach in college	number
racist	Estimate of percent of American adult who would NOT allow a racist to teach in college	number
menwomen	Who are more intolerant of gays teaching in college --- men, women, or are they both the same?	1 = Men less tolerant (i.e., won't allow to teach) 2 = Men and women are same 3 = Women less tolerant
overtime	Are people more intolerant of gays teaching in college today (2000-2010), in the past (1970s), or is it about the same across time periods?	1 = Intolerance was higher in the past (i.e., won't allow to teach) 2 = Intolerance is same today as in the past 3 = Intolerance is higher now than in the past
educ	Are college educated people more intolerant of gays teaching in college than people without a college education; less intolerant; or are they about the same?	1 = Intolerance is higher among college educated (i.e., won't allow to teach) 2 = Intolerance is same across educational levels 3 = Intolerance is lower among college educated
partyid	Do you think intolerance is lowest among Republicans, Democrats, or Independents --- or do you think it is the same regardless of political affiliation?	1 = Intolerance is lowest among Republicans 2 = Intolerance is lowest among Democrats 3 = Intolerance is lowest among Independents 4 = Intolerance is the same across all party affiliations
